THE HOWE SEWING MACHINES**ARE WORLD-RENOWNED.**

These unequalled machines are adapted to every variety of sewing for family wear, from the lightest muslins to the heaviest cloths, and to the use of Seamstresses, Dressmakers, Tailors, Manufacturers of Shirts, Collars, Skirts, Cloaks, Mantillas, Clothing, Hats, Caps, Corsets, Ladies' Boots and Shoes, Linen Goods, &c. They work equally well upon silk, linen, woolen and cotton goods, with silk, cotton or linen thread. They will seam, quilt, hem, fell, cord, braid, bind and perform every species of sewing, making a beautiful and perfect stitch, alike on both sides of the article sewed. Over 30,000 of these unrivalled Machines were manufactured and sold since April 1869. This is unprecedented in the history of sewing machines, and is another proof of the great popularity of the Howe Machine. A machine was needed possessing *simplicity* and *durability*, and adapted to a great range of work—one easily understood and comprehended by all. To produce such a machine has been the study of ELIAS HOWE, JR., who gave to the world the **FIRST SEWING MACHINE**, more than twenty years ago, and now we offer his last production—a machine embracing all the essential qualities of a first-class Family Machine.

P R E F A C E .

The publisher of this work desires to assure his friends, and the public generally, that nothing has been wanting, on his part, to approximate the impossible achievement of a Directory which shall be, like the Pope, infallible, and hopes the defects may be "like Angel's visits, few and far between."

The tact and intelligence of canvassers is often taxed to the utmost in quest of information which, however courteously sought, is sometimes withheld by persons not unfrequently the first to cavil.

The sifting process to which the material for a work of this kind is subjected, in the course of compilation, will do much to supply omissions and rectify inaccuracies on the part of canvassers and printers ; and all that pains-taking labor and experience in the making of Directories can accomplish, has been brought to bear on this book.

Without partiality or detriment to the other localities embraced in the work, the publisher has particular pride and pleasure in presenting to his fellow-townsmen of Pottsville, a Directory which he hopes will be worthy their acceptance, and begs to tender his sincere thanks for the kindness and liberality of all his patrons.

Agricultural Driving Park Hotel,

J. M. LAWRENCE, Prop.,

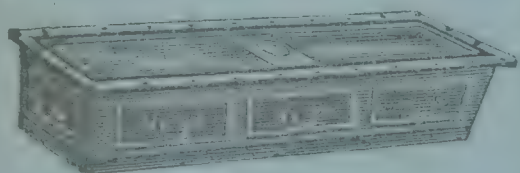

POTTSVILLE, PENNA.

THIS Large and Spacious Hotel is situated in one of the most romantic localities in Pennsylvania. For purity of air, water, &c., it cannot be excelled as a Summer Resort. The grounds are large and shady, containing forty acres, enclosed by a fence fifteen feet high, making it a very desirable resort for families. A Driving Course one-half mile in length is one of the features of this First Class Hotel. The House is situated about one-half mile from Pottsville, the thriving and prosperous County Seat of Schuylkill County. The House has all the modern conveniences, large and well ventilated rooms, two Porticos running around the whole Hotel, also a splendid Observatory, from which a view of over sixteen miles of the Schuylkill Valley can be had, embracing the villages of Tuscarora, Patterson, Middleport, New Philla and Port Carbow. Base Ball, Cricket, and Croquet grounds are attached. The Billiard Parlors will compare favorably with any in the country. For purity of Liquors the bar is second to none in the world. The table is supplied with every variety in season. Altogether it is one of the most desirable summer resorts in the United States. The scenery viewed from this House is only equaled by that of Switzerland.
